Ben,

There are still 99 hours left on the original TDD. The contract year ends on June 30th. I asked Michelle to put the additional 100 hours into a new TDD for next contract year.

Subject: Canadian Radium & Uranium Site - TDD Amendment Request (TO-0010-0015)

Dan,

RST 3 is requesting an amendment of the Canadian Radium & Uranium Site TDD# TO-0010-0015 for an additional 100 hours. The additional hours would be utilized by RST 3 to complete the upcoming Removal Assessment at the Site, prepare requested deliverables, including maps, analytical data tables, and data validation and sampling reports, during and after completion of field work.

If you concur with this request please email Michelle Tabayoyong and myself so that the amendment can be processed. If you have any questions or comments please let me know.

Thanks,

Ben Nwosu
